

The first annual Bicycle Art & Film Festival (BAFF) aims to foster cycling culture in Luxembourg through a three-day bicycle extravaganza.

The programme features five short films at CarréRotondes and three feature-length films at Cinémathèque. Captivating and inspiring, the films will take you to a unique bike kitchen and on a remarkable cycling adventure in the Peruvian Andes. You will get a glimpse into a fixed gear community in Bristol, meet talented free riders seeking challenging routes around the globe and follow the story of the Schleck brothers and the motivations and belief systems integral to Leopard Trek.

In addition to the film programme, a wide range of events will be held throughout the weekend. Special guest artist Yuri Hoppe will give a graffiti demonstration accompanied by an exhibition of his works. The one-of-a-kind bicycle expo, slideshow talk and bike repair café are certainly not to be missed! The packed schedule of activities also includes a city quiz by bike, family ride and bike polo game. Fancy fashion? Come to a bicycle fashion show.

The festival will end to the eclectic tunes of DJ Spud Bencer, who will host an after-party.

Designed to be an inspirational platform for all bicycle users and supporters, BAFF offers something for everyone!
